DESCRIPTION OF THE TRAINING OF TRAINERS WORKSHOP

This training focusses on supporting **green SMEs** to invest in and manage their growth. It equips experienced Business Advisors with tools and templates to support green SMEs that recently accessed finance and are looking to invest in growth and scale.

It provides case-study driven insights into typical challenges facing green, impact-driven SMEs to absorb finance and provides practical and easy-to use tools for Business Advisors to support enterprises to tackle them.

While most tools can be applied with any SME, the focus of this Training of Trainers Workshop lies on **impact-driven, green SMEs** which aim at creating positive environmental, economic and social impacts through their innovative business models and green products / services they are offering.

INTERESTED?

We encourage to apply with two representatives of your organisation. However, the training is also open to individual consultants.

Please apply with the following documents:

- **Detailed resume (CV)**, outlining your experience in working with (green) SMEs, your areas of expertise and which clients you have worked for.
- **Letter of motivation**, explaining to us why you would like to participate in the training, what interests you, and what you would like to achieve with the training.

Please submit both documents for each representative of your organisation.
